Setting up your OnReal for the first time in two steps.

Step1. Insert microSD card.

Confirm that there is a microSD card inserted in your OnReal.

1. Find the microSD™ slot located at the bottom of your OnReal.
2. Insert a microSD card with the gold-plated side facing the same direction as the lens.
3. The card will make a slight clicking sound, when it's securely inserted.

Step2. Charge the battery

1. Connect your OnReal to a power source using the supplied micro USB cable.
2. The Charger status LED turns green, when your OnReal is fully charged.

Power on your OnReal

1. Simply press the Power/Wi-Fi button to power on your OnReal

2. The Camera status LED will keep flashing green. If your OnReal idles over 50 seconds, your OnReal will enter power-Off mode automatically.

3. For subsequent use, simply shake your OnReal by the motion sensor. And, it will instantly power on.

Take photo

1. Press the Shutter button.
2. The Camera status LED will flash red, and your OnReal will beep.

Record video

1. Press and hold the Shutter button until recording starts.
2. The Camera status LED will keep flashing red and green while recording. You'll also hear OnReal beep.
3. Press the Shutter button again to stop recording.
4. The Camera status LED will keep flashing green, and your OnReal beeps again.

Record video clip

1. Press and hold the Shutter button.

2. The Camera status LED will keep flashing red and green while recording. You'll also hear OnReal beep twice.

3. Release the Shutter button to stop recording.

4. The Camera status LED will keep flashing green, and your OnReal beeps again.

Pairing your OnReal and your phone for the first time.

On your OnReal

1. Press Power/Wi-Fi button to power on your OnReal.

2. Press the Power/Wi-Fi button again to turn on Wi-Fi. The Camera status LED will keep flashing blue for 3 seconds, and your OnReal enables Wi-Fi connection for 120 seconds.

On your phone

1. Press the Home button, and then tap Settings > Wi-Fi.
2. Be sure that Wi-Fi is on, and then select the name of your OnReal from the list. By default, the name will be something like "OnReal….".
